PROFESSIONAL SUMMARY

Fourth-year Bachelor of Science in Computer Applications student majoring in Embedded Systems at MSU-IIT, with project experience in IoT, software development, and programming. Seeking a 700-hour OJT opportunity to apply technical knowledge, strengthen practical skills, and contribute to real-world projects.

EDUCATION

Mindanao State University - Iligan Institute of Technology — **Iligan City, Philippines**
Bachelor of Science in Computer Applications — *August 2023 - Present*
Major in Embedded Systems
Expected Graduation: July 2027
CGPA: 1.47674 | Chancellor's Lister

TECHNICAL SKILLS

Programming & Hardware Description:	C, C++, Python, Verilog HDL
Web Technologies:	HTML, CSS, JavaScript, React
Development Tools & Platform:	Visual Studio Code, Arduino IDE, CODESYS, AMD Vivado, Wokwi, Packet Tracer, WireShark, Qt Creator, XAMPP, Git, GitHub
Embedded Systems & Hardware:	Arduino Uno, ESP32, STM32F407 (RT-Spark), RT-Thread, Sensors and Actuators, Circuit Design, Hardware Prototyping, Soldering
AI & Other Tools:	Google Colab, Edge Impulse, PictoBlox
Additional Skills:	UI/UX Design, Video Editing
Soft Skills:	Communication, Problem-Solving, Adaptability, Teamwork, Attention to Detail
Languages:	Cebuano, Filipino, English

PROJECTS

Geosentry: An IoT-Based Landslide Monitoring and Early Warning System Using Explainable AI
- (*Undergraduate Thesis, In Progress)*
IoT | Machine Learning | Explainable AI (XAI) | Web Development

- Leading the development and coordination of an IoT-based landslide monitoring and early warning system integrating environmental sensors, ESP32, and machine learning.
- Developing the web-based monitoring dashboard for sensor readings, landslide risk visualization, and explainable AI insights.
- Collaborating on hardware, software, and AI integration for real-time monitoring.

Real-Time Multisensor Room Monitoring System

Embedded C | FreeRTOS | Multitasking

- Implemented a FreeRTOS-based embedded application to practice task scheduling and sensor integration.

Personal MP3 Player

Embedded Systems | Hardware–Software Integration

- Developed an embedded MP3 player project involving hardware and software integration.

Activity Recognition

Sensor Data Processing | Web Dashboard | Activity Classification

- Developed an activity recognition system designed to classify movement into idle, walking, and running states and visualize results through a web-based dashboard.

Industrial Drying Oven Control System

CODESYS | Verilog HDL | RT-Thread

- Designed and simulated industrial temperature and process control systems using CODESYS PLC programming and Verilog HDL.
- Developed an RT-Thread-based implementation for real-time monitoring and process control.

SentiSoil: AI Decision Support System for Organic Soil Monitoring

Research Proposal | IoT | Artificial Intelligence

- Contributed as a student researcher to an IoT- and AI-based soil monitoring proposal, encompassing system architecture, data flow, and user interface design.

WattWise: Smart Energy Consumption Monitoring System

Qt Creator | Desktop Application Development

- Designed and developed a desktop monitoring dashboard using Qt Creator to display and visualize energy consumption data.

Computer Vision-Based Phone Detection

Edge Impulse | Machine Learning

- Developed and trained an object detection model using Edge Impulse for detecting mobile phones from image datasets and localizing detected objects with bounding boxes

LEADERSHIP AND ACTIVITIES

Computer Applications Society — Special Events Committee Chairperson — **CCS, MSU-IIT**

- Led the planning, coordination, and execution of organizational events. — *August 2024 - May 2025*

College of Computer Studies Student Council — Special Events Committee Associate — **CCS, MSU-IIT**

- Assisted in organizing student activities and collaborating with committee members. — *January 2025*

TRAINING AND SEMINARS

AI Career Readiness Training — **August 18, 2026**

AI Ready ASEAN / MSU-IIT, Iligan City

Quantum Circuits as Pictures: An Introduction to ZX Calculus Webinar — **March 20, 2026**

Quantum Computing Society of the Philippines / Online via Zoom

2025 Introduction to Embedded Systems Programming Using RT-Thread IoT OS — **November 24-25, 2025**

RT-Thread / CCS, MSU-IIT, Iligan City

Seize Your Opportunity: an OJT Preparation Workshop — **November 24, 2025**

KadaKareer / CCS, MSU-IIT, Iligan City
